

# FLUX OUTREACH MEETING

## NAVIGATING THE TEEN MIND:

## INSIGHTS INTO ADOLESCENT MENTAL HEALTH

MONDAY, APRIL 8, 2024

6:00-7:00 BST & EDT

*Join experts for an hour-long overview of the most recent developments in the field of Developmental Cognitive Neuroscience with an emphasis on Mental Health in Adolescents. You will hear from leaders in the field, followed by a discussion with a professional panel and attendees.*

### ABOUT FLUX

The Flux Society's purpose is to advance the understanding of human brain development by serving as a forum for professional and student scientists, physicians, and educators to: exchange information and educate the next generation of developmental cognitive neuroscience researchers; make widely available scientific research findings on brain development; encourage translational research to clinical populations; promote public information by discussing implications on the fields of education, health, juvenile law, parenting, and mental health, and encourage further progress in the field of developmental cognitive neuroscience.

### WHO IS INVITED

Anyone with an interest in adolescent mental health, including teachers, policy makers, Flux Members!
